## Principal's Report

May 7th 2020

It has been another busy week of remote learning. Students, parents and teachers are doing a terrific job and I encourage you all to continue to support each other as best you can. It has been quite a difficult time for everyone, however I have noticed that most students have settled into their new routine and are working hard on their assigned learning tasks. I have been really impressed with the instructional videos teachers have been putting together to explain the learning to be undertaken each day. It is a great use of technology and makes the learning requirements really easy to understand. I thank you all for your feedback to teachers about how to improve the learning required of students each day. You may have noticed teachers trying to increase the range of activities to be completed which aren't necessarily heavily focussed on the curriculum. We have put together some whole school activities for students to participate in each Friday. Tomorrow's activity is to do an activity with your favourite pet, take a video or photo and send to your teacher. If you don't have a pet or you are learning on-site, you will be able to use your favourite teddy or toy to complete the task. I thought I would join in with this task as well, so here is a picture of my favourite pet, our dog, Jess. She is a golden retriever who likes to lay flat on her back and have her belly scratched. She also likes to find smelly things to roll in which doesn't make her very popular at home. I look forward to seeing all of your pets tomorrow.

Joel Fraser

Principal

8th May Molly Firth turns 12  
 9th May Eddie Lambourn turns 10  
 11th May Elsie Pinch turns 7

## Mother's Day

We would like to wish all of our school mum's a very happy Mother's Day for Sunday. We hope you are able to enjoy time with your family doing something special.

## Remote Learning

Olive is writing facts about spiders that she learned from an information video. Well done Olive.

## Meet Our Students

**Name:** Zara Pattinson

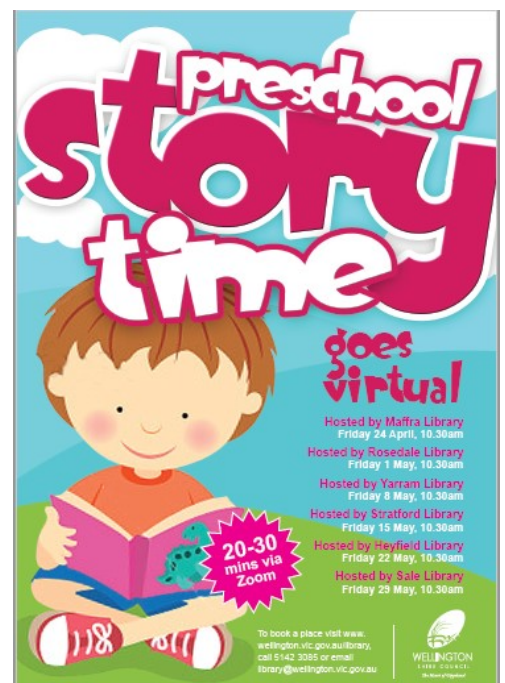

**Grade:** 6

**Favourite subject:** Maths

**Favourite sport:** Netball

**My favourite thing about remote learning is:** I don't like remote learning, I would like to be at school.

**When we don't have to social distance any more I am most looking forward to:** Playing sport and hanging out with my friends.

# Remote learning

## 3/4 Science experiments

The 3/4s did some fun hands on science experiments this week.

- Destiny with 'Floating Egg'
- Chloe with 'Snow Fluff'
- Reeve with 'Storm in a glass'
- Ryder and Sophie

Mrs Sweeney has been very pleased to see some great art pieces coming through. Adam has drawn a fabulous Sea Turtle.

Darcy has made a diorama to show the effects that a bushfire has. This is just one element to a big research project all the grade 5 and 6's are undertaking. Fantastic effort Darcy.
